

Measure: Transition of Care: Medication Reconciliation

TOC: Medication Reconciliation

Population: Patients \geq 18 who had an inpatient admission

Measurement Range: Include all discharges during measure year. Calculation of dates:

Acute/non-acute inpatient stay if preceded by observation stay	Use admit date
Discharge followed by readmission or direct transfer to an acute/non-acute inpatient care setting	Use date of discharge through 30 days after discharge (31 total days). Use the admit date from the first admission and the discharge date from the last discharge.
If acute inpatient stay admission date and discharge date occur between the admission and discharge dates for a non acute inpatient stay	Include only the non-acute inpatient discharge

Required Process/Codes:

- 1.) Notification of inpatient admission (ADT report or shared EMR) and discharge information including date of receipt, inpatient provider, procedures/treatment provided, discharge diagnoses, current medication list (or notation that no medications were prescribed/ordered upon discharge), test results and documentation or pending/no pending tests, instructions for care.
- 2.) Patient Engagement after discharge: Coded outpatient visit, either in person or virtual.
- 3.) One of the following CPT and CPT II codes:

99495: TCM services moderate complexity within 14 days of discharge	99496: TCM services high complexity within 7 days of discharge
99483: Cognitive Assessment & Care Plan Services	CPT II: 1111F Medication Reconciliation
99605: Medication Therapy Management Services performed by a pharmacist. (New patient: 15 minutes)	99606: Medication Therapy Management Services performed by a pharmacist.(Est. patient: 15 minutes)

Exclusions: Patient in hospice care.
